ABOUT ME

I am currently pursuing a Diploma in Software Engineering, and continuing my Intermediate studies also from Aptech (SBTE).

Through my academic journey, I have developed a strong passion for technology and real-world problem-solving.

I have worked on multiple academic and personal projects that have strengthened my practical understanding of software development concepts.

I am eager to apply my knowledge and skills to real-world projects and internships, while continuously improving myself in the field of software development.

I am always eager to learn, build projects, and collaborate with others.
Currently, I am looking for opportunities such as internships and projects to grow and gain experience in the tech industry.

My goal is to become a skilled software engineer who contributes meaningfully to innovative and impactful technology solutions.
